# GIANFRANCO FERRÉ

NOVEMBER 4 – MARCH 6, 2016  
STEELE GALLERY

---

*The white shirt became a hallmark of Gianfranco Ferré's (1944- 2007) style. Trained initially as an architect, Ferré's work is rooted in the philosophy that his customer wants functional, classic yet powerful clothes constructed from high quality materials. This exhibition includes drawings, technical details, sketches, photographs and videos in addition to several examples of Ferré's virtuoso interpretations of this classic design.*
